

Update that the Sanitation Districts will resume limited construction activities for the Clearwater Tunnel project at Royal Palms Beach beginning the week of **March 16**. We are resuming worksite preparation, including soil borings to help reinforce existing infrastructure. This work is necessary to prepare for the next major phase of construction to connect the new tunnel to our existing outfall pipe system. Working hours for this phase of construction are scheduled **Monday through Friday from 7:00 a.m. to 3:30 p.m.**

There is currently no timeline to begin the next phase of major construction at Royal Palms Beach which will involve significantly more equipment and activity. Residents and businesses in the area will be notified well in advance of our full mobilization before that activity resumes.

We appreciate your patience and cooperation during this important work. For questions or concerns, please contact Maria Rosales-Ramirez at mrosales@lacsdsd.org or call (877) 300-9283.
